

Ubiquiti UCG- Max-NS Cloud Gateway Max

Model: UCG-Max-NS

Manufacturer: UBIQUITI

EAN: 810084698365

Product Code: 1578581

R6,568

The **UCG-Max-NS** is a compact **2.5 Gbps Cloud Gateway** designed to provide reliable connectivity for over **30 UniFi devices** and support for more than **300 clients**. Engineered by **Ubiquiti**, this gateway offers exceptional performance with a **1.5 Gbps IPS routing** capability, making it an ideal choice for both home and business environments.

With dimensions of **141.8 x 127.6 x 30 mm** (5.6 x 5 x 1.2 inches) and a weight of **519 g** (1.1 lb), the **UCG-Max-NS** is designed to fit seamlessly into various settings without taking up unnecessary space. Made from durable **polycarbonate**, it combines functionality with a robust construction, ensuring longevity and reliability under varying conditions. Its operational temperature ranges from **-10 to 40° C** (14 to 104° F), making it flexible for different environments.

This device is powered using a **USB type C** method (5V DC/5A) and consumes a maximum of only **16.1W** of power, which is energy-efficient for continuous operation. The **UCG-Max-NS** comes equipped with a variety of connectivity options, including four **1/2.5 GbE RJ45 LAN ports** and one **1/2.5 GbE RJ45 WAN port**, allowing for straightforward integration into your existing network setup. Moreover, it features a **0.96" status display** that provides real-time feedback on device performance.

The **UCG-Max-NS** stands out with its advanced features such as **redundant WAN** support, which includes failover and load balancing capabilities. Its next-generation security options, like **application-aware firewall rules** and **signature-based IPS/IDS threat detection**, ensure that your network remains secure at all times. Additionally, it offers comprehensive traffic management and VPN support, making it suitable for powerful networking needs. This device is ideal for users who seek a blend of performance, security, and ease of use. Please note that the **UCG-Max-NS** does not include a drive or a tray for a drive.
