Ubiquiti AI Port Enhancer

Model: UP-AI-Port

Manufacturer: UBIQUITI

EAN: 810084699195

Product Code: 1578723

R5,578

TRANSFORM YOUR SURVEILLANCE WITH AI TECHNOLOGY

The Ubiquiti AI Port is an innovative appliance designed to elevate the capabilities of any UniFi or compatible third-party camera. By integrating advanced AI detection, classification, and recognition features, this device transforms standard surveillance systems into intelligent monitoring solutions. Users can benefit from enhanced security and situational awareness, as the AI Port intelligently analyzes video feeds to identify and categorize objects, ensuring that critical events are not overlooked.

ROBUST PERFORMANCE AND VERSATILE COMPATIBILITY

Engineered for high performance, the AI Port supports a maximum camera resolution of 3840 x 2160 pixels, delivering crystal-clear images that are essential for effective surveillance. With a single GbE RJ45 networking interface, it seamlessly integrates into existing networks. The device is powered via PoE, accommodating various power requirements, making it adaptable to different installation scenarios. Its compact design, measuring 150 x 64 x 38.4 mm without the mount, ensures easy

placement in diverse environments.

DURABLE AND RELIABLE FOR ANY ENVIRONMENT

Constructed from durable polycarbonate, the Ubiquiti AI Port is built to withstand a wide range of environmental conditions, operating effectively in temperatures from -20 to 40° C (-4 to 104° F) and humidity levels of 20 to 90% noncondensing. This resilience makes it suitable for both indoor and outdoor applications. Additionally, the AI Port is NDAA compliant and certified by FCC, IC, and CE, ensuring it meets stringent regulatory standards for safety and performance.
