Equipped with **120 dB true WDR technology**, the Hikvision camera excels in environments with strong backlighting, ensuring clear imaging under various lighting scenarios. The **H.265+ compression technology** not only reduces bandwidth and storage requirements but also maintains high video quality. Additionally, the camera features advanced **deep learning algorithms** that focus on human and vehicle target classification, enhancing security monitoring capabilities. With a built-in microphone for real-time audio security and an **IP67 rating** for water and dust resistance, this model is built to withstand the elements while delivering reliable performance.
