

Hikvision DS-3E0505HP-E 4 Port Gigabit Unmanaged POE Switch

Model: DS-3E0505HP-E

Manufacturer: HIKVISION

EAN: 6941264031604

Product Code: 1578768

R2,186

The **Hikvision DS-3E0505HP-E** is a state-of-the-art **4 Port Gigabit Unmanaged POE Switch** designed to meet the demands of modern networking environments. This model features **3 gigabit PoE ports, 1 gigabit Hi-PoE port, and 1 gigabit RJ45 port**, providing versatile connectivity options for various devices. With compliance to the **IEEE 802.3at/af/bt** standards, the Hi-PoE port offers a maximum output of **60 W**, while the standard PoE ports deliver up to **30 W** each, ensuring efficient power distribution across your network.

One of the standout features of the **Hikvision DS-3E0505HP-E** is its **6 kV surge protection** for PoE ports, which safeguards your devices from electrical surges, enhancing reliability and longevity. The switch supports **long-range transmission** up to **300 m**, making it ideal for expansive

installations. Additionally, the built-in **PoE watchdog** automatically detects and restarts unresponsive cameras, ensuring continuous operation and minimal downtime. The **port isolation** feature further enhances network security, making this switch a robust solution for both commercial and residential applications.

Constructed with a **solid high-strength metal shell** and a **reliable fan-free design**, the **Hikvision DS-3E0505HP-E** is built to withstand demanding environments while maintaining optimal performance. Its **wire-speed forwarding** and **store-and-forward switching** capabilities ensure efficient data handling, making it a superior choice for users seeking a dependable and high-performance networking solution.
