The **Hikvision DS-KD-KP KD8 Series Pro Modular Door Station** is an advanced **keypad module** designed for modular door station applications. This product allows users to input a **pin code** to unlock doors and initiate calls to indoor stations, enhancing security and convenience in residential and commercial settings. Its user-friendly interface ensures easy operation, making it an ideal choice for various environments.

With an impressive **IP65** and **IK07** protection rating, the Hikvision DS-KD-KP is built to withstand harsh weather conditions and physical impacts, ensuring durability and reliability. Additionally, the module features **backlight compensation** behind the keypad buttons, providing clear visibility even in low-light situations. This combination of robust protection and functional design sets the Hikvision DS-KD-KP apart from its competitors, making it a superior choice for secure entry solutions.
