Ubiquiti UniFi Pro XG 8 PoE Managed L2/L3 10G Ethernet (100/1000/10000) Power over Ethernet (PoE) Gray

Model: USW-Pro-XG-8-PoE

Manufacturer: UBIQUITI

EAN: 810177160144

Product Code: 1578982

R12,627

PROFESSIONAL-GRADE PERFORMANCE WITH LAYER 3 CAPABILITIES

The Ubiquiti Switch Pro XG 8 PoE is engineered for high-performance networking, featuring 8 ports of 10 GbE and 2 additional 10G SFP+ ports. With a robust switching capacity of 200 Gbps and a total non-blocking throughput of 100 Gbps, this switch is designed to handle demanding applications with ease. Its Layer 3 capabilities enable advanced routing features, making it ideal for complex network

environments. The compact design allows for flexible deployment, whether on a desktop or wall-mounted, ensuring it fits seamlessly into any professional setting.

ENHANCED POWER OVER ETHERNET (POE) FUNCTIONALITY

Equipped with PoE++ technology, the Switch Pro XG 8 PoE delivers up to 155W of total PoE availability, supporting devices that require higher power levels. Each of the 8 RJ45 ports can provide up to 60W, accommodating a wide range of powered devices such as IP cameras, access points, and VoIP phones. This feature simplifies installation by reducing the need for additional power sources, streamlining network setups while maintaining a clean and organized environment.

ROBUST SECURITY AND NETWORK MANAGEMENT FEATURES

The Ubiquiti Switch Pro XG 8 PoE is packed with advanced security features to protect network integrity. With support for MAC-based ACLs, IP-based ACLs, and DHCP snooping, this switch ensures that only authorized devices can access the network. Additionally, features like port isolation, loop protection, and storm control enhance overall network reliability. The switch also supports advanced IGMP configuration and multicast rate limiting, making it suitable for professional AV applications, ensuring smooth and efficient data transmission.

DURABLE DESIGN WITH COMPREHENSIVE ENVIRONMENTAL PROTECTION

Constructed from SGCC steel and polycarbonate materials, the Switch Pro XG 8 PoE is built to withstand various environmental conditions. It operates effectively in ambient temperatures ranging from -5 to 45°C (23 to 113°F) and can handle humidity levels of 10 to 90% non-condensing. With ESD protection rated at ± 30kV for both air and contact, this switch is designed for longevity and reliability in demanding environments. Its compliance with NDAA standards and certifications from CE, FCC, and IC further ensure that it meets rigorous quality and safety requirements.
