

Western Digital Ultrastar 24TB SAS HC590 WUH722624AL5204 0F59373

Model: 0F59373

Manufacturer: WESTERN DIGITAL

EAN: 829686009059

Product Code: 1579026

R33,819

DISCOVER THE BENEFITS OF THE ULTRASTAR SERIES FOR CLOUDS!

The Ultrastar series is an innovative solution that combines greater capacity with lower operating costs, ideal for public and private cloud environments. With advanced technology, this line of hard drives provides excellent storage density, leading to efficient data management and savings in infrastructure. High performance and reliability make Ultrastar a key component of modern storage solutions, tailored to the growing demands of the market. It is the perfect choice for those seeking a balance between performance and cost in the rapidly evolving cloud world.

ULTRASTAR HARD DRIVES: RELIABILITY AND PRECISION AT A NEW LEVEL

Ultrastar hard drives are a top-tier solution for demanding users who expect reliability and precision at the highest level. With an impressive workload rating of up to 550 TB per year, Ultrastar outperforms traditional drives, offering ten times the performance. Innovative technologies used in these drives, such as an advanced head positioning system with dual servomechanisms, ensure not only excellent energy efficiency but also exceptional operational precision. The main and auxiliary servomechanisms, operating based on the piezoelectric effect, guarantee that every operation is performed with the utmost accuracy, making Ultrastar the ideal choice for enterprise-class environments.
