Ubiquiti UNAS-Pro-8 8-bay NAS Server

Model: UNAS-Pro-8

Manufacturer: UBIQUITI

EAN: 810177162544

Product Code: 1579108

R22,491

ROBUST STORAGE SOLUTION FOR HIGH-DEMAND ENVIRONMENTS

The Ubiquiti UNAS Pro 8 is engineered to meet the rigorous demands of large-scale file storage and sharing. With eight 2.5/3.5" HDD bays and two M.2 NVMe SSD cache slots, this 2U rack-mount NAS offers exceptional flexibility and scalability. The combination of high-capacity storage and advanced caching technology ensures faster access and lower latency, making it ideal for businesses that require reliable and efficient data management. Its compact dimensions of 442.4 x 480 x 87.4 mm allow for seamless integration into existing rack systems, optimizing space without compromising performance.

ADVANCED NETWORKING CAPABILITIES FOR SEAMLESS CONNECTIVITY

Equipped with dual 10G SFP+ ports and a 10 GbE RJ45 interface, the UNAS Pro 8 provides high-availability networking that supports speeds of up to 10 Gbps. This robust networking capability is essential for environments where large files are frequently accessed and shared, ensuring minimal

downtime and maximum productivity. The device supports various Ethernet speeds, including 5G, 2.5G, 1G, and 100M, making it versatile for different network configurations. With power redundancy through hot-swappable modules, the UNAS Pro 8 guarantees continuous operation, even during maintenance.

COMPREHENSIVE DATA PROTECTION AND BACKUP FEATURES

The UNAS Pro 8 prioritizes data integrity and security with its support for multiple RAID configurations, including RAID 5, RAID 6, and RAID 10. This flexibility allows users to choose the best setup for their specific needs, ensuring data redundancy and protection against drive failures. Additionally, the device supports file encryption and offers robust backup options to remote UNAS systems, CIFS/SMB servers, and popular cloud services like Google Drive and Amazon S3. With features like snapshots and Time Machine backup, users can easily manage and recover their data, providing peace of mind in any operational scenario.

DESIGNED FOR PERFORMANCE AND RELIABILITY IN ANY ENVIRONMENT

Constructed from durable SGCC steel, the UNAS Pro 8 is built to withstand the rigors of a demanding IT environment. It operates efficiently within an ambient temperature range of -5 to 40° C (23 to 104° F) and humidity levels of 5 to 95% non-condensing, making it suitable for various settings. The device is NDAA compliant and certified by FCC, CE, IC, and SRRC, ensuring it meets stringent regulatory standards. With a powerful Quad-Core ARM Cortex-A57 processor and 16 GB of memory, the UNAS Pro 8 delivers reliable performance, making it a trusted choice for organizations seeking a robust and efficient storage solution.
