

NVIDIA RTX PRO 4500 Blackwell 32GB GDDR7 Retail

Model: 900-5G147-2550-000

Manufacturer: NVIDIA

EAN: 810152850213

Product Code: 1579192

R104,613

NVIDIA RTX PRO 4500 BLACKWELL: BREAKTHROUGH PERFORMANCE IN AI

NVIDIA RTX PRO™ 4500 Blackwell is a revolutionary graphics card that takes performance to a whole new level, offering 32 GB of ultra-efficient GDDR7 memory and groundbreaking Blackwell architecture. Designed to accelerate AI-based experiences and enhance workflows, this card enables tackling the most complex design challenges. With advanced neural rendering, users can create stunning visual content, opening new horizons in fields such as engineering, data science, and content creation. The RTX PRO 4500 Blackwell is the key to innovation and creativity in every domain.

DISCOVER THE POWER OF NVIDIA RTX PRO 4500 BLACKWELL: A NEW ERA OF GRAPHICS

NVIDIA RTX PRO 4500 Blackwell is a revolutionary graphics card that elevates computing performance and graphics quality to a whole new level. With NVIDIA Blackwell architecture and fifth-generation Tensor cores, it delivers maximum AI performance, which combined with DLSS 4 technology provides unprecedented image quality. The new multiprocessor units, enhanced with neural shaders, allow for realistic detail reproduction in games and graphic applications. The fourth generation of ray tracing cores is designed to handle complex geometry, making the RTX PRO 4500 an ideal solution for professionals in computer graphics and gaming.
