

Ubiquiti UP-Siren-PoE, UniFi Protect Siren

Model: UP-Siren-PoE

Manufacturer: UBIQUITI

EAN: 810177162117

Product Code: 1579205

R3,454

POWERFUL ALL-WEATHER ALARM SYSTEM FOR ULTIMATE SECURITY

The Ubiquiti Siren is designed to deliver a robust 110 dB alarm, ensuring that any potential threats are immediately addressed. With its all-weather capabilities, this siren is built to withstand the elements, featuring an IP56 weatherproof rating. Whether mounted on a wall or ceiling, it provides reliable performance in various environments. The siren is powered by either four CR123A batteries or a 12-24V DC input, making it versatile for different installation scenarios. Its compact dimensions of 139.9 x 139.9 x 35 mm (5.5 x 5.5 x 1.4 inches) and lightweight design at 345 g (12.2 oz) facilitate easy placement without compromising on sound output.

ADVANCED CONNECTIVITY AND USER-FRIENDLY FEATURES

Equipped with proprietary SuperLink technology, the Ubiquiti Siren offers impressive connectivity with a range of up to 2 km (1.2 miles). This ensures that the siren can effectively communicate with other devices in the security system, enhancing overall safety. The siren features multiple input

terminals for power and signal, along with a buzzer for additional alerting capabilities. User-friendly buttons for power, factory reset, and tamper switch provide straightforward operation. The integrated LED lighting system, with options for red, green, blue, and white, adds a visual alerting feature that complements the audible alarm.

DURABLE DESIGN MEETS VERSATILE FUNCTIONALITY

Constructed from high-quality aluminum alloy and polycarbonate, the Ubiquiti Siren is built to last, ensuring long-term reliability in various conditions. It operates effectively in ambient temperatures ranging from -30 to 50° C (-22 to 122° F) and can handle humidity levels of 5 to 90% non-condensing. The siren is certified by FCC, IC, and CE, ensuring compliance with international standards. Additionally, it is NDAA compliant, making it suitable for government and sensitive applications. With compatibility for UniFi Protect on both web and mobile platforms, users can easily integrate and manage the siren within their existing security infrastructure.
