

Ubiquiti UniFi 5G Max Cellular network modem

Model: U5G-Max

Manufacturer: UBIQUITI

EAN: 810177161905

Product Code: 1579236

R9,830

UNMATCHED 5G PERFORMANCE FOR SEAMLESS CONNECTIVITY

The UniFi 5G Max modem delivers exceptional performance with a blazing-fast 5G connection, achieving download speeds of up to 3.4 Gbps and upload speeds of 560 Mbps. This high-performance device is designed for any UniFi deployment, ensuring that users experience seamless connectivity whether at home or in a business environment. With support for both 5G NSA and SA modes, as well as robust 4G LTE capabilities, the UniFi 5G Max is equipped to handle all your networking needs, providing reliable and high-speed internet access.

VERSATILE AND EASY INSTALLATION OPTIONS

Designed for flexibility, the UniFi 5G Max can be easily adopted through any UniFi PoE port, allowing for automatic setup that saves time and effort. It features multiple mounting options, including a desktop stand, wall, and window mounts, ensuring that it can fit into any environment seamlessly. The device's tamper-resistant IK04 rating adds an extra layer of security, making it suitable for both

residential and commercial installations. With a compact size of 180 x 109 x 33.8 mm, it can be discreetly placed without compromising performance.

ADVANCED FEATURES FOR ENHANCED RELIABILITY

Equipped with dual SIM/eSIM capabilities, the UniFi 5G Max ensures uninterrupted connectivity through seamless failover between networks. This feature is particularly beneficial for businesses that rely on consistent internet access. The modem also includes a 2.5 GbE RJ45 port for high-speed wired connections, enhancing overall network performance. With a maximum power consumption of just 14.5W and powered via PoE, the device is energy-efficient, making it an ideal choice for environmentally conscious users.

ROBUST DESIGN AND MANAGEMENT CAPABILITIES

Constructed from durable polycarbonate and aluminum alloy materials, the UniFi 5G Max is built to withstand various environmental conditions, with an operating temperature range of 0 to 40 °C and humidity tolerance of 5 to 95% non-condensing. The device features a user-friendly 1.3" touchscreen display for easy management and monitoring. Compatible with UniFi Network version 10.0.162 and later, it integrates smoothly into existing UniFi ecosystems, providing users with a comprehensive management experience for their networking needs.
