

Ubiquiti UniFi 5G Max Outdoor Cellular network modem

Model: U5G-Max-Outdoor

Manufacturer: UBIQUITI

EAN: 810177162803

Product Code: 1579237

R10,369

UNMATCHED 5G PERFORMANCE FOR SEAMLESS CONNECTIVITY

The UniFi 5G Max modem delivers exceptional performance with a remarkable downlink speed of up to 3.4 Gbps and uplink speeds reaching 560 Mbps on 5G NSA. This high-performance device is designed for any UniFi deployment, ensuring that users experience fast and reliable internet connectivity. With support for both 5G and 4G LTE, including a maximum downlink of 1.6 Gbps on LTE, the UniFi 5G Max is engineered to meet the demands of modern networking environments, making it an ideal choice for both home and business applications.

FLEXIBLE INSTALLATION OPTIONS WITH ROBUST DESIGN

The UniFi 5G Max offers versatile installation options, including a desktop stand, wall mount, and window mount, allowing for easy integration into various environments. Constructed from durable

polycarbonate and aluminum alloy, this modem is built to withstand the rigors of everyday use while maintaining a sleek appearance. Its tamper-resistant design (IK04 rating) ensures that the device remains secure in any setting, providing peace of mind for users concerned about unauthorized access.

ADVANCED FEATURES FOR EFFORTLESS MANAGEMENT

Equipped with a user-friendly 1.3" touchscreen display, the UniFi 5G Max simplifies management and monitoring. The device supports automatic setup through any UniFi PoE port, making deployment quick and hassle-free. With dual SIM/eSIM capabilities and seamless failover, users can enjoy uninterrupted connectivity even during network transitions. The modem's embedded cellular antennas and extensive frequency band support ensure optimal performance across various network conditions, enhancing overall user experience.

RELIABLE PERFORMANCE IN DIVERSE CONDITIONS

Designed to operate efficiently in a wide range of environmental conditions, the UniFi 5G Max functions effectively in temperatures from 0 to 40 °C (32 to 104 °F) and humidity levels of 5 to 95% non-condensing. This adaptability makes it suitable for both indoor and outdoor installations, ensuring reliable performance regardless of location. With a maximum power consumption of just 14.5W and powered via PoE, the UniFi 5G Max is not only efficient but also environmentally friendly, making it a smart choice for sustainable networking solutions.
