

TP-Link Tapo S110E Switching actuator

Model: Tapo S110E

Manufacturer: TP-LINK

EAN: 8885021370873

Product Code: 1579373

R1,162

Versatile Use Through Dry/Wet Contact Mode

Tapo S110E supports dual modes, ideal for handling a wide range of applications. In dry contact mode, it is perfect for managing garage doors, boilers, irrigation and sprinkler systems, access control systems, and more. In wet contact mode, effortlessly control smart lights, outlets, and electric floor heating without replacing your existing equipment.

Bidirectional Energy Monitoring

Unlike other products that require app settings for energy usage/generation modes, Tapo S110E features advanced hardware that automatically detects the current direction, offering a true plug-and-play experience without the need for manual setup. This makes it suitable for both balcony power stations and household appliances.

Insightful Energy Tracking

Track your energy generation/use with clear and easy-to-understand stats and intuitive charts. When monitoring energy generation, it calculates your solar power generation benefits and helps you determine when you'll recoup the cost of your solar equipment.

Take Control of Your Energy Bill

Better manage costs with flexible billing options and smart scheduling. Automatically save money by scheduling power-hungry devices during off-peak hours.

Smart Control

Schedule & Timer

Optimize heating schedules to control your boiler according to your daily routine, saving both energy and money on your bills.

Voice Control

Use simple voice commands for hands-free control of connected devices via Siri, Alexa, Google Assistant, or Samsung SmartThings.

Remote Control

Control connected devices from anywhere at any time using the Tapo app. No longer worry about forgetting to turn off the light when leaving home.

Set Scenes

Control multiple devices all at once for a customizable scene.

Full Compatibility

Tapo S110E supports Matter, offering high compatibility with Apple Home, Alexa, Google Home, Samsung SmartThings, and IFTTT. It seamlessly connects traditional devices to third-party systems,

creating a unified smart home experience free from protocol or platform limits.

10× Longer Lifespan with Zero-Crossing Protection

Tapo introduces industrial-grade zero-crossing protection technology in a smart switch module made for consumers, preventing relay contact welding and extending the lifespan of smart switch modules by over 10 times.

Comprehensive Safety Guarantee

Multiple safety features offer all-round protection to safeguard you and your family.

Relay Failure Protection

The failure of the relay can be identified and an alarm will be sent to the user via the Tapo app.

Overload Protection

When the current carried by the device exceeds the set threshold, the current is automatically switched off.

Overheating Protection

When the temperature is too high, the current is automatically switched off to reduce the occurrence of risks.

Power Protection

Your connected device will automatically shut off when the power exceeds the set threshold, protecting your household's safety.

Even Smarter with Tapo Smart Actions

Paired with other Tapo smart devices, it allows for the creation of diverse smart living scenarios to enhance convenience in everyday life and seamlessly adapt to your lifestyle—all through Tapo Smart

Actions.

Instant Control via Bluetooth

Tapo S110E allows instant Bluetooth control, enabling normal configuration and secure control via Tapo App even without Wi-Fi. If the router fails or the password is changed, users can directly manage and reconnect offline devices through Tapo App without the need to disassemble the switch.

Small Size and Compatible

Designed for maximum compatibility, the compact Tapo S110E fits near lights, behind switches, or wall outlets—even in the smallest EU boxes.
