

Ubiquiti USL- Entry door/window sensor Wireless Door/Window White

Model: USL-Entry-3

Manufacturer: UBIQUITI

EAN: 810177167174

Product Code: 1579392

R3,432

RELIABLE MONITORING WITH LONG BATTERY LIFE

The Ubiquiti Entry Sensor is designed for dependable monitoring of door and window statuses, ensuring peace of mind for any property. With an impressive battery life of up to six years, this sensor minimizes maintenance needs and allows for uninterrupted operation. The device is powered by a lithium battery (CR123A) and consumes a maximum of only 27.7mW, making it an energy-efficient choice for long-term use.

VERSATILE AND EASY INSTALLATION OPTIONS

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

This entry sensor features flexible mounting options, including adhesive and screw mounts, allowing for quick and easy installation on various surfaces. Its compact dimensions (75.5 x 23.5 x 22.5 mm) ensure it can fit discreetly in any environment. The sensor is constructed from durable polycarbonate material, ensuring longevity and resilience against environmental factors, making it suitable for both residential and commercial applications.

SEAMLESS INTEGRATION WITH UNIFI PROTECT

The Ubiquiti Entry Sensor integrates seamlessly with the UniFi Application Suite, specifically the UniFi Protect system. This compatibility allows users to monitor their property through a comprehensive web application and mobile app available on both iOS and Android devices. With SuperLink connectivity, the sensor provides a reliable range of up to 2 kilometers (1.2 miles), ensuring that users receive timely alerts and updates on their property's security status.
