Imou Cruiser 2C 3K

The Cruiser 2C 3K leaves no corner of your front or backyard uncovered thanks to its PTZ function; 355-degree rotate, 90-degree tilt and 8x digital zoom. The Cruiser 2C 3K features 4 night vision modes, including Smart Full Color night vision. In Smart Full Color night vision, the camera displays a greyscale image using infrared light, upon detection of a person or vehicle, the built-in spotlights are activated to display images in colour. This outdoor camera features Smart Tracking and AI detection of people and vehicles, when a person or vehicle is identified, the camera automatically tracks the movement. The Imou Cruiser has an IP66 certification which makes the camera suitable for all

weather conditions. This security camera also features two-way conversation; hear and respond to what is being observed with the built-in speaker and microphone.

Image quality

The 3K, or 5-megapixel, lens offers great image quality to keep an eye on a front yard, backyard or garage. The applied H.265 image compression technology ensures that high-quality recordings and streams take up relatively little space and thus require less bandwidth. In this way, the available storage space and bandwidth can be used optimally. The Imou Cruiser security camera uses 2.4GHz Wi-Fi with a dual antenna for longer range. Besides a wireless connection, this camera has an Ethernet port for wired connection.

Smart tracking and night vision

The Cruiser 2C 3K outdoor camera accurately identifies people and vehicles with its AI detection function. False alarms from animals or falling leaves, for example, are thereby prevented. Upon detection, the camera tracks movement thanks to the PTZ function with Smart Tracking. Combined with a 110dB siren and flashing spotlights, this security camera deters any unwanted visitor. This 5-megapixel camera also provides good security at night thanks to its 4 night vision modes; 1. Smart night vision: when it gets dark, the camera uses infrared to display greyscale images. As soon as the camera detects a person, the built-in spotlights are activated to record in colour. 2. Colour night vision: when it gets dark, the camera activates the built-in spotlights to record images in colour. 3. Infrared night vision: when it gets dark, the camera uses infrared for greyscale images. 4. Night vision off

Two-way talk

Upon detection, the Cruiser 2C sends instant notification via smartphone. Two-way conversation allows listening and reacting to what is detected. This is because the Cruiser 2 security camera features a built-in speaker and microphone to immediately anticipate an event. Moreover, in case of unwanted visitors, you can choose to activate the siren via the Imou Life app.

Installation

Download the Imou Life app (iOS, Android or Windows) and create an Imou account. After logging in, select the "+" sign at the top right of the Imou app to add a camera. Scan the QR code on the camera and follow the steps in the app. Next, select the Wi-Fi network (2.4GHz) and make sure the camera is close to the router during the installation process. The camera will be ready to use in no time! For recording images, you can opt for the Imou Cloud service, as well as local storage by using a MicroSD card or an Imou NVR.

Smart features of the Cruiser 2C 3K in the Imou Life app

- Notification schedule: Set which times/days the camera is active.
- Detection region: Choose in which area the camera is active.
- Smart scenes: Set smart scenes such as away mode where the camera is fully active.
- Multiple users: Share the device with multiple users so the whole household stays informed.
