

Samsung M392A4K40BM0- CRC memory module 32 GB 1 x 32 GB DDR4 288-pin DIMM

Model: M392A4K40BM0-CRC

Manufacturer: SAMSUNG

EAN: 7640143874293

Product Code: 1579678

R7,102

Samsung DDR4 VLP Registered DIMMs (or VLP RDIMMs) are designed with an additional hardware register between the DRAM module and the system's memory controller. VLP RDIMMs present several advantages for the system, such as a lower electrical load on the memory controller and sustained stability even with an increase in the number of installed memory modules. Thus, VLP RDIMMs are often the default choice for deployment in server-class computing systems.

In addition to VLP Registered DIMM's features, Samsung DDR4 memory is available as VLP Registered DIMM that it provides an optimized solution for highly virtualized environments, high-performance computing and networking. Semiconductor modules of Samsung DDR4 are designed with new system circuit architecture to deliver higher performance with low power requirements than previously available memory products. Doubled bandwidth, along with reduced voltage and

dramatically lower power consumption, improves performance and optimizes the total cost of ownership. Samsung DDR4's enhanced reliability, availability and serviceability (RAS) features provide enhanced reliability and improved signal integrity (S/I).
