
InLine Certified HDMI Cable, Ultra High Speed HDMI, 8K4K, 0.5m

Model: 17955A

Manufacturer: INLINE

EAN: 4043718296460

Product Code: 1580721

R758

InLine® Certified HDMI Cable, Ultra High Speed HDMI, 8K4K(*depending on system and connected hardware)

HDMI 2.1:

This InLine HDMI 2.1 specification cable supports 8K video transmission at up to 60 frames per second or 4K at up to 120 frames per second. The even higher resolution enables, among other things, smoother gameplay and the reduction of motion blur, faster transmission of frames and lower latency as well as seamless switching between different video sources. The Enhanced Audio Return Channel (eARC) supports the transmission of lossless high-definition audio. This makes the InLine HDMI cable particularly suitable for home cinema systems, professional video editing studios or digital signage systems to reproduce content with outstanding detail and clarity.

Home cinema: Connect your 8K home cinema components such as projectors, TVs, AV receivers and streaming boxes with the InLine HDMI cable and benefit not only from a higher resolution and more bandwidth, but also from uncompressed, high-resolution audio formats such as Dolby TrueHD and DTS-HD Master Audio for an immersive visual and acoustic cinema experience within your own four walls.

Gaming: For gaming enthusiasts, the InLine cable offers the opportunity to experience games in impressive 8K resolution with incredibly clear graphics and smoother frame rates. This is particularly relevant for state-of-the-art PC gaming setups or gaming consoles such as the PlayStation 5 or Xbox Series X.

Business: In professional production environments, such as film or graphic design studios, the InLine HDMI cable can be used to edit and play back high-resolution video and image content in real time. This enables precise colour reproduction and detail for demanding production requirements. In business environments, the InLine HDMI cable can be used to transmit presentations, graphics and multimedia content in 8K resolution to provide an impressive and high-quality visual display at conferences, meetings or events.

Streaming: Users can enjoy content from 8K-capable streaming devices such as streaming players, IPTV receivers or media PCs in impressive 8K quality on their screens with the InLine HDMI cable.

Gold-plated contacts

The gold-plated plugs improve the conductivity, durability and corrosion resistance of the InLine HDMI cable. The risk of oxidation or corrosion is significantly reduced. This increases the long-term reliability of the connection, e.g. even in environments with higher humidity. Gold-plated contacts adapt better to the connections and are less susceptible to abrasion and damage when plugging and unplugging. In addition, the higher conductivity can improve signal transmission and therefore picture and sound quality, especially over longer cable runs.
