be quiet! LIGHT BASE 900 DX White Full Tower

Model: BGW70

Manufacturer: BE QUIET!

EAN: 4260052191767

Product Code: 1581188

R3,645

Exceptional from every angle

Be prepared for virtually any PC component available and make Light Base 900 DX White your creative show case.

LOOK AT ME!

Panorama design for perfect visibility

You deserve to show off what you got. Large window panels on the front and the side allow you to watch your PC components at work anytime. This makes Light Base 900 DX White the perfect choice as your show case.

BRIGHT LIGHTS

3 meters of LEDs

Light Base 900 DX White is predetermined for the big show. Nothing proves that more than the massive ARGB LED strip which is visible from all angles. The 3m long strip consists of 172 LEDs. With an included ARGB controller button and even more colors and modes with motherboard synchronization, you can make Light Base 900 DX White truly your own. Express yourself!

UP, UP, DOWN, DOWN, LEFT, RIGHT, LEFT, RIGHT…

Change the layout in literal seconds

It takes longer to read this text than to invert Light Base 900 DX White. With its relocatable feet, you can invert the PC case literally in seconds. You can also choose a horizontal layout, which is executed just as quick. No matter which layout your gaming room requires: Light Base 900 DX White delivers.

MAKE IT YOUR CASE

Large dimensions for endless creativity

Light Base 900 DX White features no preinstalled fans. However, up to 10 fans can be installed in total, making Light Base 900 DX White extremely versatile. With its extra spacious design, it can hold up to 420mm radiators simultaneously, an E-ATX motherboard and even the most powerful graphics cards. Thanks to the two-chamber design, drives and cables are neatly tucked in the back and do not get in the way of airflow.

MAXIMUM USABILITY

A new level of convenience

The detachable radiator and fan brackets in the top and bottom make installation of your cooling setup very easy. Each bracket fits a 420mm radiator, which can be installed at the same time. On top of that, you can install another radiator with up to 360mm length in the side, for a whopping 3 radiators. On top of that, Light Base 900 DX White comes with 2 ARGB and PWM hubs that offer 12 connectors in total. Their positions at the top and bottom allow you to conveniently connect your hardware.

HOLD MY GPU

For a neat interior

Light Base 900 DX White features a flexible VGA holder that subtly prevents your GPU from sagging. The best part: This holder works in any orientation and with a horizontally or vertically installed graphics card. The result is a clean look even if you use big and heavy graphics cards.

ON THE FLIPSIDE...

Support for motherboards with backside connector design

The motherboard tray fully supports backside connector designs like Asus BTF (Back to Future), MSI Project Zero, and Gigabyte Project Stealth, for a true and cable-free view.
