COUGAR Case Fan MHP 120 ARGB, Black (3 in one package)

Model: CGR-CF-MHP12HB3-RGB

Manufacturer: COUGAR

EAN: 4710483774164

Product Code: 1581621

R1,562

MHP 120

- 3 Fan Pack -

High-Performance Radiator ARGB Fan

Through structural adjustment and precision tuning, MHP 120 ARGB fan is suitable for any cooling fan position inside the chassis. In addition, the metallic-reinforced motor hub & metallic bearing shell design drastically increases the stability and cooling performance. MHP 120 ARGB also provides various and colorful ARGB lighting effects for your chassis. It is the perfect choice for cooling fan upgrades!

The Stunning ARGB Lighting Effects

With the built-in 5V-ARGB ports and 9 ARGB lamp beads, COUGAR MHP 120 ARGB cooling fan provides various and colorful lighting effects through the fan blade that deliver a powerful and bright

RGB lighting experience.

Extremely Hyper Fan

With 2000 RPM(max)

Proven with data from certified professional testing labs, MHP 120 ARGB delivers 82.48 CFM/ 143.53 m3/h high airflow and 4.24mmH2O high static pressure. Moreover, it features a high fan speed capable of reaching up to 2000 RPM, providing outstanding performance, MHP 120 ARGB fan is the fan that dominates!

Metal-reinforced

Motor Hub & Shell

With the metal-reinforced motor hub and metal bearing shell design, MHP 120 ARGB fan generates excellent rotational stability that takes enhanced performance and durability to a whole new level.

HDB Bearing & PWM Control

MHP 120 ARGB is equipped with HDB bearing (Hydro Dynamic Bearings), which extends the fan’s life span and reduces decibel effectively. Meanwhile, PWM control technology allows for total control of fan speed to reach that perfect balance between machine performance and cooling.

Anti-vibration Damper

MHP 120 ARGB cooling fan is equipped with rubber dampers at four edges of the fan that absorbs vibration. Further reducing noise from mounting gaps and/or resonance in the chassis, adding to the quiet performance of PC your system.

Suitable For Radiator / Heatsink

With the high static pressure level of MHP 120 ARGB, it is an excellent choice for most radiators & heatsinks in maximizing their heat dissipation. And of course, MHP 120 ARGB is also compatible and can be mounted to most of the air/water coolers from other brands with ease.
