Omni-directional Sound Collection

Thanks to the dual MEMS microphones, the sounds from the group members are fully and accurately transmitting.

Exquisite Tone Outputs

The Cyclops has the automatic output switches, under the meeting, the sound is focused on crystal clear, but for the music mode, the frequency of sound is melodically boosted.

Omnidirectional Sound Pick-up

Quick Buttons

The buttons allow you to control the Cyclops without any software installation.

USB Type-C Connection

Note: To achieve rated performance, it is highly recommended that you connect the USB Type-C port directly from the motherboard or laptop with the exclusive cable from the package. Connecting to the extended USB ports, such as the front panel of the PC, USB Hub, or Docking, might lead to a malfunction.
