be quiet! POWER ZONE 2 750W power supply unit 20+4 pin ATX ATX Black

Model: BP006EU

Manufacturer: BE QUIET!

EAN: 4260052191361

Product Code: 1581925

R3,499

Exceptional efficiency for Gamers

Power Zone 2 750W is a power supply with 80 PLUS® Platinum certification and semi-passive zero-RPM cooling for both efficient and quiet gaming sessions.

PLATINUM CERTIFIED

Highly efficient operation

Power Zone 2 750W is certified with 80 PLUS Platinum and Cybenetics Platinum, resulting in an energy efficiency rating of up to 94.2%. This results in lower power consumption, overall cooler and quieter operation, and many other benefits for your high-end system.

SEMI-PASSIVE ZERO-RPM COOLING

Enjoy the silence

A large Pure Wings 3 140mm fan is keeping Power Zone 2 750W cool. While under low load, the fan turns off completely until its services are needed again for more demanding operations. This post-ventilation requires a short cooldown period of 2-5 minutes to avoid frequent and annoying starts and stops of the fan. Combined with the large fan for active cooling, this power supply is exceptionally silent in all load scenarios.

PURE WINGS 3 FAN

Specially designed for Power Zone 2

No Power Supply is like the other. Hence, we have altered aspects of our renowned Pure Wings 3 140mm fan to make it the perfect match for Power Zone 2 750W. The fan offers outstanding reliability and makes for a long-lasting companion. Due to its large diameter, the fan cools the interior of the PSU efficiently and quietly.

FUTURE-PROOF YOUR SYSTEM

With 90° angled 12V-2x6 connector in scope of delivery

Power Zone 2 750W is an ATX 3.1 PSU and comes with both native integration of the 12V-2x6 connector for next-generation PCIe 5.1 graphics cards, and 3 PCIe 6+2-pin connectors for support of current-gen GPUs. A 90° angled 12V-2x6 connector in the scope of delivery leaves no doubt that this PSU is here to stay. All of this makes Power Zone 2 750W extremely versatile and the perfect choice for powerful systems of today and the ones to come.

THE NEW STANDARD OF POWER

For massive transient loads

Power Zone 2 offers 750W of continuous power with one massive 12V rail. Even if the graphics card demands excessive power for a short time: Power Zone 2 750W handles power excursions up to double its rated power with ease. This ensures reliable operation with the next generation of processors and graphics cards.

HIGH-CLASS TECHNOLOGIES

All packed in a stunning design

With its LLC topology, the Power Zone 2 750W offers best-in-class voltage regulation and efficiency. This makes it perfect for building very quiet systems or upgrading gaming and media creation PCs. The inner values are what everyone cares about most in a power supply but looks cannot be
