- Specific Sony licensed design, crafted by Thrustmaster teams to provide outstanding comfort: large, ultra-soft ear pads and a headband covered in thick, soft foam padding for extreme comfort during long gaming sessions and reliable, effective passive isolation.
- Double electro-acoustic bass amplification, thanks to the earpieces' unique design, combined with electronic bass boost built into the controller.
- 3,5 m of cables to adapt to any type of gaming configuration.
- High-grade selected materials for officially licensed products.

HIGH-PERFORMANCE MICROPHONE.

- Noise-cancelling mic, designed to target your voice only and reduce the ambient noise, for the most effective communication with your teammates.
- The microphone is detachable and adjustable, to adapt to every player's head size and shape.
- Exclusive customization of your mic's gain level! Adjust precisely the gain for your voice, so that you'll be perfectly understood by your teammates.
- The PS4 console's voice recognition function can be used via the Y-300P's microphone.

FULL COMPATIBILITY.

- Plug-and-play on PlayStation®4; directly recognized by the console sound settings menu thanks to USB Digital Audio Direct Plug for PS4.
- Fully compatible with PlayStation®3 via USB + RCA Splitter.
- Detachable cable, for full compatibility with your other handheld gear.
