

Lindy VGA to DisplayPort 1.2 Converter

Model: 38296

Manufacturer: LINDY

EAN: 4002888382960

Product Code: 1582478

R2,497

The Lindy VGA to DisplayPort Converter is a compact, premium solution for connecting a DisplayPort monitor or display to legacy VGA source devices. Supporting resolutions up to Full HD, this sleek converter is perfect for use in offices at home, in the workplace or in education, or for connecting analogue PC systems to eye-catching digital signage displays.

An additional 3.5mm VGA audio connection also allows for audio to be embedded into DisplayPort to provide 2CH stereo to compliment a professional video experience, while a separate USB Type A connection ensures there is always enough power for even the most demanding scenarios.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
