Model: 133491

Manufacturer: EQUIP

EAN: 4015867229996

Product Code: 1582773

## R1,045

The equip® USB-C to HDMI 2.0 adapter is a small device that allows you to connect your USB-C enabled devices such as laptops, tablets, or smartphones to an HDMI enabled display like a TV or a monitor. With support for HDMI 2.0 technology, this adapter can deliver 4K Ultra HD resolution at 60Hz refresh rate, which means you can enjoy high-quality video and audio content without any lag or delay. This adapter is easy to use and does not require any drivers or software installation, simply plug-and-play. It is a convenient and cost-effective way to extend the functionality of your USB-C device and enjoy high-quality multimedia content on a larger screen.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
