Product Code: 1583553

R3,827

The modern HP OneShred Auto 80CC is perfectly suited for home office requirements or small office environments and is still sufficiently compact to fit on any desk. The shredder has a cutting capacity of 8 A4 sheets in the manual infeed and 80 sheets in Automatic mode. Parallel use of the two infeeds is also possible. The shredder cuts material according to security level P-4, therefore it fulfils the requirements for shredding according to DSGVO (General Data Protection Regulation) requirements. The particle-cut mechanism ensures the personal documents inserted, such as payslips or tax documents, are shred to produce paper clippings 4.3 mm x 12 mm in size. After a continuous shredding process of ten minutes in Automatic mode, the reliable device requires a cool-down period before it can continue its quick cutting speed of 2.0 metres per minute.
