

Kensington Slim NanoSaver 2.0 Keyed Laptop Lock

Model: K65021WW

Manufacturer: KENSINGTON

EAN: 085896650218

Product Code: 1583690

R2,086

With today's slim laptops with Nano security slots, a typical cable lock head may fit, however the lock can be thicker than the laptop itself. This can prevent the device laying flat, unevenly raising it off the desktop. A redesigned version of the innovative Slim NanoSaver® Laptop Lock, the Slim NanoSaver® 2.0 Keyed Laptop Lock features a smaller lock head, with the locking cleat positioned low and the key cylinder up high and out of the way. This careful sizing and positioning of components has created a premium locking solution that won’t block ports and allows ultra-thin and 2-in-1 laptops with Nano lock slots to lie flat and stable. Verified and tested for industry-leading standards in torque/pull, foreign implements, lock lifecycle, corrosion and other environmental conditions, the Slim NanoSaver® 2.0 Keyed Laptop Lock features a 1.8m (6') carbon steel cut-resistant cable with a protective sheathing to help keep attachment points such as desks and tables free from scratches. A 5mm keying system, common across all of Kensington’s latest locks means there’s only one keying system to manage, while the smaller key opening helps thwart picking attempts. Register & Retrieve™, Kensington’s online key registration program that allows for quick, secure and free key replacement if ever lost or stolen. A five-year limited warranty means you can
