iiyama TF2438MSC-B2 touch control panel 60.5 cm (23.8") 1920 x 1080 pixels

Model: TF2438MSC-B2

Manufacturer: IIYAMA

EAN: 4948570127269

Product Code: 1584813

R10,653

The ProLite TF2438MSC-B2 is a robust and highly responsive 24" Full HD open frame touchscreen monitor designed for professional integration in demanding commercial and industrial environments. The IPS panel delivers sharp detail, accurate colours and wide viewing angles, ensuring excellent visibility whether installed at service counters, kiosks, control points or customer-facing systems. Featuring DeepContrast PCAP+ 10-point touch technology with optical bonding, the screen provides smooth, precise interaction with reduced reflections for improved readability in bright environments. The edge-to-edge glass is protected with a scratch-resistant 7H surface and anti-fingerprint coating, helping maintain a clean, professional appearance even under heavy daily use. With IPX1 protection against humidity and dripping water, the display offers additional reliability in busy or semi-exposed locations. Built with a durable metal housing, the TF2438MSC-B2 is engineered for long-term operation and seamless integration into enclosures, kiosks and custom installations. Flexible
