Designed for the home baker that demands more from their mixer, the Titanium Chef Patissier XL is a cut above the rest. Imagine a mixer in which you can prove dough and melt ingredients in the bowl, with built in weighing scales, a touchscreen with intuitive preset functions, two bowls, in-bowl illumination and an easy one-handed head lift. With this Chef, you have it all.

Ever watched Bake Off and thought it looked like too much work? It would be far easier with a Titanium Chef stand mixer. Thanks to the built-in scales, you can put all the ingredients straight into the mixing bowls. If a recipe needs melted butter, just use the warming function to save time and extra cleaning. It comes with 4 different attachments for mixing, whisking, beating, and kneading so you can try out a variety of recipes. And who knows, you might even get yourself a Paul Hollywood handshake.
