

Samsung Portable SSD T7 2 TB USB Type-C 3.2 Gen 2 (3.1 Gen 2) Blue

Model: MU-PC2T0H/WW

Manufacturer: SAMSUNG

EAN: 8806090312403

Product Code: 1585469

R7,984

Transfer in a flash

Featuring sequential read/write speeds of up to 1,050 MB/s and 1,000 MB/s, the T7 can transfer massive files in mere seconds via its USB 3.2 Gen 2 interface to give your workflow a much-needed boost.

Compact design with colossal capacity

Store it all on a credit card-size drive with capacity from 1TB to 4TB in choice of blue or grey.

Compatible with multiple devices

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Bundled with USB Type C-to-C and Type C-to-A cables for added convenience, the T7 minimises disruption, letting users switch seamlessly between Windows®, macOS®, smartphones, tablets or game consoles.

Capture longer, save instantly

Prolong your smartphone filmmaking with T7's excellent power efficiency. Capture and store 4K smartphone filming data simultaneously with T7. Enable instant editing with effortless T7 connection to your laptop or PC.

Sophisticated thermal solution

Use T7 without worrying about overheating. The T7's advanced thermal solution uses the Dynamic Thermal Guard to withstand and control heat, so the compact SSD stays at an optimal temperature even at fast speeds.

Built strong and secure

The T7 can be secured with an AES 256-bit encrypted password and is encased in a sturdy metal body that keeps data intact from falls of up to 2 meters. The T7 is confidently backed by a 3-year limited warranty.

Samsung Magician software

Unlock the full power of T7 with Samsung Magician software - a user-friendly suite of optimisation tools that facilitate the best portable SSD performance. Protect valuable data, monitor drive health, and get the latest firmware updates.

Bringing innovations to life

For decades, Samsungs NAND flash memory has powered groundbreaking technologies that have changed every part of our daily lives. This NAND flash technology also powers our consumer SSDs, making room for the next big push of innovation.
