discrete details.

Human & Vehicle Classification

Integrated AI chips support advanced algorithms to distinguish humans and vehicles from other objects. You can flexibly customize alarm rules to match your monitoring needs and receive more accurate event notifications.

We keep an eye on your business.

Smart Detection

Backed by AI algorithms, the VIGI camera offers more smart detection. You will receive notifications when someone crosses a boundary, enters an area you've set, obstructs the camera, or removes/abandons objects.

Small but compact with wide views

With a small, compact form factor and a 2.8 mm ultra-wide angle lens, the VIGI C230I Mini Camera is ideal for corridors, elevators, small warehouses, and convenience stores, where space is limited and a wide view is required.

Every Event is Under Your Control.

VIGI camera intelligently detect activities, inform you instantly and response automatically by smart detection and two-way audio.

IK08 Vandal-Proof

Equipped with a vandal-proof dome encasing, the VIGI dome camera withstands damage and provides more reliable security protection in important scenarios, such as ATMs, corridors, and checkout counters.

More compression. More savings. Same quality.

Without using any extra bandwidth, your cameras transmit compressed crystal-clear video to save disk space, ease network loads, and reduce monitoring costs without sacrificing image quality.

Never miss a detail.

SmartVid-Smart Video Enhancement

VIGI’s professional technologies process videos to greatly improve their quality that is vital to your monitoring, including Smart IR, WDR, 3D DNR, and Night Vision.

Corridor Mode

Corridor mode allows you to change the image aspect ratio from 16:9 to 9:16. This helps to monitor long and narrow areas and provides a more pleasant viewing experience.

No need to check long compatibility lists.

Onvif Ensures Compatibility

Easily add IPCs from VIGI and other brands to establish a powerful and varied network thanks to barrier-free compatibility △ .

Flexible Management and Storage

Take full control over your security via four management methods: the web UI, NVR UI, VIGI app, and VIGI Security Manger. Local storage is available for each methods, as well as onboard storage with SD card slot (up to 256 GB).

One system. Full security.

Run your business with peace of mind.

The VIGI professional surveillance system by TP-Link is dedicated to protecting the business you’ve worked hard to build — whenever, wherever. Our outstanding functions, reliable quality guarantees, and simplified installation work together to ensure your business stays safe and sound.
