Whether it be Amazon Alexa, Google Assistant or Apple Siri: easily display the live image from the WLAN camera on devices with a screen using voice controls

Easy operation from anywhere via the app

Whether it be the sofa or the sun lounger: with the Hama Smart Home app and WLAN surveillance camera, you have your eye on the indoors at all times, no matter where you are

Infra-red night vision

Detailed images in the dark: during the night, infra-red night vision means you can still rely on camera surveillance as it works independently of the integrated light

Motion detection

WLAN surveillance camera responds to movements: if the camera detects movement, you can be notified via push notification or automatically trigger recording

Detects human movement

Who goes there? Motion detectors can distinguish between humans and other entities and can be set accordingly

Noise detection

WLAN surveillance camera reacts to acoustic signals: if the camera detects voices or sounds, you can be notified via push notification or automatically trigger recording

Night light function

Soft light for peaceful nights: the camera in a cute teddy design has an integrated night light that provides calming light - ideal for making baby feel safe

Temperature sensor

A feel-good climate at a glance: the smart baby camera sends a notification if the temperature is too high or too low - for a healthy and comfortable sleeping environment

2-way audio

Communication from anywhere: the microphone and speaker allow contact via the WLAN camera and smartphone or tablet, like an intercom system

Audio sleep aid

Lullabies at the touch of a button: play soothing white noise or gentle lullaby melodies directly via the surveillance camera

Flexible goose neck

Flexible goose neck for optimum positioning

Private mode

Set the surveillance camera to sleep mode: simply activate private mode if you do not want the Wi-Fi camera to film or record

MicroSD card slot

More local memory completely without the cloud thanks to the microSD card slot: memory cards of up to 128 GB offer plenty of space for extensive video recordings, so no surveillance material gets lost

Can be extended at will with other Smart Home products

Step by step to the Smart Home: with the Hama Smart Home app, you can expand and network your smart home with any number of Hama Smart Home products, such as switching smart LED lamps and lights on and off via a motion sensor

Smart Home without a gateway
