# StarTech.com 3U Steel Lockable 19-inch Rackmount Drawer for AV, Network, Server

Model: 3U-RACK-MOUNT-DRAWER

Manufacturer: STARTECH

EAN: 065030905121

Product Code: 1588967

## R2,901

Keep essential tools and equipment securely stored inside a standard 19-inch rack with this lockable 3U rackmount drawer.

## Keep Service Equipment Within Reach

Store test equipment, spare components, accessories, and essential supplies directly inside the rack. The slide-out design keeps frequently used items organized and accessible during maintenance, repairs, and system modifications.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

## Secure High-Value Gear

An integrated lock helps restrict access to valuable or mission-critical equipment. The durable steel construction protects stored items and keeps them securely contained within the rack cabinet.

## Route Connected Cables More Cleanly

Three rear cable-access holes support power or data connections to equipment stored inside the drawer. This helps reduce cable clutter and keeps connected devices neatly integrated into the rack setup.

## Add Durable Storage to Standard Racks

The 3U drawer fits standard 19-inch cabinets and supports up to 22lb (10kg). Its rackmount design adds dedicated storage alongside servers, AV equipment, and other rack-mounted hardware without requiring separate shelving.
