HP 499250-001 power supply unit 460 W Metallic

Model: 499250-001

Manufacturer: HP ENTERPRISE

EAN: 5704174551621

Product Code: 1589555

R4,964

Looking to reduce energy cost and space with increased performance? HP Common Slot Power Supplies share a common electrical and physical design that allows for hot-swap, tool-less installation into HP server and storage solutions. These power supplies are available in multiple, high-efficiency input and output options, allowing you to "right-size" a power supply for specific server/storage configurations and environments.

This flexibility helps to reduce power waste, lower overall energy costs, and avoid "trapped" power capacity in the data center. The power supplies provide the IT industry’s highest level of power efficiency (up to 96%), helping users to reduce power requirements per server and reducing overall data center power requirements.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
