‘Telephoning is everything’ – that’s the motto of the emporiaSIMPLICITY-LTE. This mobile phone for seniors does not have a camera or any additional bells and whistles that could unnecessarily overload the device. This makes it particularly suitable for those who simply want to make calls safely and always be easy to reach.

And what do you need for optimal phone calls? First and foremost, excellent call quality – which is guaranteed by modern 4G mobile technology. We have also equipped the emporiaSIMPLICITY LTE with extra-large buttons that are illuminated, raised and have an excellent pressure point. Sounds good, doesn’t it? But that’s not all. There are also three speed-dial keys, and you can choose the font size yourself. Thanks to the wide display, you always have all your calls in view, and thanks to the simple operation, everything works smoothly. The phone is IP44-certified, meaning it is dustproof

and splash-proof, and is particularly suitable for people who use a hearing aid (M4/T4). Additional features include an LED torch, calendar, calculator, alarm clock and radio. The scope of delivery also includes a charging cradle, a replaceable battery and the user guide.

With this camera-free mobile phone, you are also on the safe side. What do we mean by that? You benefit from our patented emergency button, which is located on the back of the device. In an emergency, you can use it to call for help quickly.

When developing this camera-free mobile phone, our designers paid particular attention to high-quality workmanship combined with an elegant appearance. Making calls has never been easier – or more stylish.
