Build a professional video wall with quick, tool-less display adjustments

Build modular video wall installations with a TV mount that supports six points of adjustment while still providing pop-out rear access, helping simplify alignment and maintenance in professional AV setups.

Create Scalable Video Wall Setups

Combine multiple mounts to build flexible video wall layouts like 2x2, 1x4, or custom configurations for commercial and public-facing deployments. Each wall bracket supports displays up to 70-inch and154lb (70kg).

Support Landscape or Portrait Mounting

Install displays vertically or horizontally with VESA compatibility from 200x200 to 600x400mm, giving you greater versatility when designing video wall layouts. A wall mounting plate CAD file and instructional video are available for download to support planning and integration.

Access Displays Quickly for Service

Pop-out design with a kickstand extends up to 12.8in (32.5cm) from the wall, providing easy rear access for adjustments, maintenance, and cable management on mounted TV panels.

Achieve Precise Screen Alignment

Six adjustments provide control over height, lateral positioning, tilt, swivel, depth, and rotation, helping to fine-tune final placement without remounting the displays for alignment and a clean video wall finish.
