R6,009

Elite Performance. Total Customization.

Engineered for ultimate speed, peak performance, and deep customization, the ROG Raikiri II Pro PC controller empowers you to dominate every game. ROG SpeedNova technology delivers a competition-grade 8K polling rate and ultra-low latency for enhanced wired and 2.4GHz gaming. Experience anti-drift precision with TMR hot-swappable joysticks and gain an edge with dual-mode triggers and micro-switch buttons for instant actuation and tactile feedback. Further tailor your control with extra-customizable buttons and personalize on-the-fly via the full-color panel for profiles, remapping, RGB, and vibration. Power through extended sessions with an extended battery life of up to 79 hours of 2.4GHz wireless play. Premium accessories include a protective charging case,
