

# **Bosch PST 900 PEL power jigsaw 3100 spm 620 W 2.2 kg**

Model: 0.603.3A0.200

Manufacturer: BOSCH

EAN: 3165140526968

Product Code: 1592984

## **R3,592**

The PST 900 PEL is a jigsaw ideal for DIYers who require a saw for more demanding tasks. The compact and practical jigsaw ensures maximum precision in a wide array of materials. Tried-and-tested Bosch Electronic technology enables the stroke rate to be pre-selected and controlled using the trigger switch and integrated setting wheel, making the saw easier to start and adapt to the material at hand. Maximum precision and control are provided by the innovative CutControl function, that also works in conjunction with the integrated PowerLight to ensure a clear view of the workpiece and cutting line. Bosch Low Vibration technology and linear mass balance keep vibration to a minimum. Ergonomic softgrip coating on the handles increases safety levels and provides the ideal conditions for controlled sawing.

The PST 900 PEL jigsaw enables passionate DIYers to tackle even the largest renovation projects. This is all thanks to the powerful 620 watt motor and four-stage orbital pendulum action which ensure that sawing tasks can be completed in next to no time. Thanks to the one-handed SDS system, saw blades can be reliably changed in seconds without requiring any additional tools. The

adjustable dust blowing function provides a clear view of the cutting line at all times, helping to increase precision. The jigsaw's sturdy base plate makes for stable guidance and can be adjusted for mitre cuts up to 45°. A dust extraction port helps to keep the surrounding area free of dust. Like all saws in the "Expert" class, this tool also features Bosch's proven electronics, with stroke rate preselection and control.

With the PST 900 PEL, DIYers are able to tackle an array of different materials, including wood, aluminium and steel. It can achieve cutting depths of 90 millimetres in wood, 15 millimetres in aluminium and 8 millimetres in steel. The Bosch CutControl system ensures good alignment and precision tracking of the cutting line. The transparent, retractable CutControl helps the user to guide the blade accurately along a line. Meanwhile, the integrated LED PowerLight provides a clear view of the cutting line at all times. The four-stage orbital pendulum action ensures faster sawing progress and better manoeuvrability around corners, which means that even complex restoration projects are easy to manage.

The PST 900 PEL is the ideal jigsaw for DIYers, even those who like to tackle large renovation projects every now and then. The tool features high sawing power, a great deal of precision and a very sturdy design. Thanks to the powerful 620 watt motor, even the toughest jobs can be tackled with ease. Like all saws in the "Expert" class, this tool also features Bosch's proven electronics, with stroke rate preselection and control. Users can also adjust the PST 900 PEL to suit the material at hand thanks to the accelerator function, the stroke rate preselection setting wheel integrated into the accelerator switch, and the pendulum switch. The new Bosch CutControl function ensures that the cutting line can be tracked easily and precisely.

Thanks to its compact design, the PST 900 PEL is particularly easy to handle. Further comfortable features include softgrip handles and Bosch Low Vibration technology with linear mass balance. The powerful 620 watt motor ensures that progress on your sawing project is quick. Thanks to the one-handed SDS system, saw blades can be reliably changed in seconds without requiring any additional tools. The tool includes a number of high-quality saw blades for special sawing tasks. To keep the work area free of dust, the PST 900 PEL is equipped with a dust blowing function and a dust extraction port.
