3M™ P2 R Particulate Filters 2125 protect against fine dusts and oil/water based mists. Suitable for use with all 3M half and full face masks.

For breathing protection against solid and liquid particles, use 3M™ Particulate Filter, 2125. They're versatile enough to use across our range of reusable half and full-face masks, for safe working in hazardous environments. Our lightweight, P2 R filters combine protection with comfort. They offer low breathing resistance and good balance when connected to your mask, and their flexibility means they fit comfortably under welding shields. They can be clicked into place quickly and easily, and they can be used with any 3M™ Reusable Masks with a bayonet-style connection.
