Model: 06 0873 6040

Manufacturer: WMF

EAN: 4000530685803

Product Code: 1595390

R1,427

Besides good timing, accurate quantities and the correct amount of ingredients are the key to successful cooking and baking. The stylish, super-flat WMF kitchen scales with an elegant Cromargan® stainless steel weighing surface and clear digital display accurately weigh wet and dry ingredients in all units of weight and up to five kilos. The scales also have a battery level indicator and switch off automatically when not in use. The practical tare function allows you to weigh all ingredients separately or together in a bowl. WMF's precise kitchen scales are very easy to use and the elegant design speaks for itself!

With the WMF Scala kitchen utensils, you won't just be cooking with joy and passion, but also with perfection right down to the smallest detail. What's a pinch or a dash? The stylish kitchen scales will tell you and will accurately measure every gram and every millilitre. If you want to know when your roast, cake or breakfast egg is done, then the timer is the perfect assistant. And once you've started

taking interest in perfect temperatures, you won't be able to resist the other WMF Scala measuring devices: the wine thermometer to get your exquisite tippie to the ideal temperature or the refrigerator thermometer to ensure that your favourite ice cream doesn't produce ice crystals. The small, precise kitchen gadgets have been designed to be constant companions – ensuring that whatever you rustle up in the kitchen is a success.
