High Speed Cables deliver ultra high-definition performance with no tangles.

HDMI has become the standard digital connection, delivering the highest-quality audio and video signal over a single cable. With an ultra-thin, tangle-resistant design, gold-plated contacts and a sturdy yet slim PVC jacket, Manhattan Ultra-thin High Speed HDMI Cables are carefully constructed to meet the evolving needs of the ultra high-definition marketplace. Manhattan High Speed HDMI Cables provide the highest resolution possible at 4K x 2K, an audio return channel and a bandwidth of 18 Gbps at 600 MHz. These high-quality cables provide ultra high-definition video and multichannel, digital audio with increased performance characteristics and greater accuracy. Expanded features include Internet connectivity for home entertainment devices using a single HDMI connection. Plus, this cable's unique design makes it easy to handle and shape without worrying about snags and tangles.
