R2,464

Rack mountable PDUs (Power Distribution Units) are professional solutions for powering multiple devices while mounted securely in a 19" rack mount alongside additional power, IT or AV equipment.

For a neat and tiny installation the Schuko sockets are on the backside of the product and power can be controlled for each socket individually via a switch on the front of the product.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
