Windows and an USB connector with spring-driven cable reels. This keyboard is especially convenient for mobile use as well as for all dirty, moist and respectively hygienic applications whenever only a numeric keyboard is needed.

When a numbers make you happy

This dust and splash-proof keypad of Keysonic could be it.
Especially in application areas where it gets dirty or wet, or hygienic standards must be absolutely complied (IP 64) and only numeric input methods are used, this number pad is the ideal partner.

With retractable cable

A cable reel ensures that every bit of cable that is not needed, is quickly rolled up by itself. So the order in the workplace will not be a difficult task anymore.

Quick button for Calculator

If you use the Windows operating system, you can use the shortcut key for the calculator by pressing the button to display the Calculator.
