R1,342

Make waves with the vibrant colors and combinations of the Afterglow Wave Wireless Controller's eight RGB lighting zones and four pre-set modes. With a built-in, 2100mAh rechargeable battery you won't need to purchase single-use batteries, so you can save the planet and your bank account. You'll need to call it quits before the controller with up to a 40-hour battery life. Get comfy on the couch for a long day of gaming with the 30-foot wireless range. Take down enemies quickly and efficiently by mapping controller functions to the two programmable back buttons. See your gaming in a new light with the officially licensed Afterglow Wave Wireless Controller for Nintendo Switch™.
