

Equip DisplayPort 1.2 to HDMI Adapter, 4K/60Hz

Model: 133445

Manufacturer: EQUIP

EAN: 4015867230022

Product Code: 1599269

R1,042

The equip® DisplayPort 1.2 to HDMI adapter is a device that allows you to connect a computer or other device with a DisplayPort output to a TV or monitor with an HDMI input. The adapter supports 4K resolution at a refresh rate of 60Hz, providing clear and smooth video playback. With this adapter, you can easily connect your laptop, desktop, or other device to a larger display without the need for complicated setups or multiple cables.

The compact size of the adapter makes it easy to carry with you when you're on the go, and its plug-and-play design means you don't need any additional software or drivers to use it.

Overall, 133445 adapter is a convenient and practical solution for anyone who wants to enjoy high-quality video on a larger screen, whether for work or entertainment purposes.
