Bit by bit and byte by byte

Secure cloning of bootable media or entire drive backups are no problem with this external CloneStation. You can quickly and easily create bit-precise clones of an M.2 SSD at the touch of a button. The status LEDs show the current progress at all times.

Safely stored with optimal temperature management

The housing is made of high-quality aluminium. This not only ensures a first-class appearance, it also results in an efficient heat dissipation. SSDs stay cool even during demanding tasks thanks to direct contact with heat conduction pads attached to the lid.
