Multiport Adapter / Docking Station for Laptop and MacBook® - use three 4K monitors at once with 12 connections to your device

Elevate your device's connectivity with the Manhattan 12-in-1 Multiport Adapter. This versatile docking station fills the gaps in your laptop or MacBook®, offering essential connections such as HDMI, DisplayPort, Power Delivery, Ethernet, card reader, audio and USB ports.

Triple display connectivity in 4K without down-scaling

The two HDMI ports and the DP port let you multitask on more monitors at once. While other triple monitor docking stations often need to reduce the resolution of the third monitor to 1080p, this one will let you display in gigantic 4K across all three.

Versatile Connectivity for Your Peripherals and Wired Network

You're also able to meet most connectivity needs with three USB-A ports that connect and charge compatible devices fast, as well as a SuperSpeed USB-C data-transfer port to connect high-bandwidth devices. Address the absence of wired network connectivity in most contemporary Ultrabooks™ and MacBooks® by utilizing the Gigabit RJ45 port for reliable 10/100/1000 Mbps speeds. Thanks to two slots for SD/microSD cards, you don't need an external card reader anymore.

Powerful Charging with up to 100 W

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Charge your notebook with up to 100 W through the featured USB-C PD port. Simultaneously charge other mobile devices like tablets or smartphones through the USB-A connections. The Power Delivery feature intelligently determines the power requirements of compatible devices, ensuring safe charging, faster than standard chargers.

Seamless Phone-to-Screen Experience

Connect any Android 9 and later smartphone supporting video output over USB-C DP Alt Mode. Enjoy your apps and media on a larger scale by watching videos or presenting slides directly from your phone to your monitor.

A Portable Companion for Your Travels

Encased in sturdy aluminum, this multiport adapter is designed to be your ideal travel companion. Compact enough to easily fit alongside your primary device in your computer bag or backpack, it ensures that connectivity is never compromised on the go.
