in low-light conditions up to a distance of 30 meters. The camera's fixed-focal lens has a 2.8mm focal length, providing a wide-angle view that is suitable for monitoring large areas.

Designed for both indoor and outdoor use, the camera boasts an IP67 rating, making it resistant to dust and water, which ensures continued operation in adverse weather conditions. The Wi-Fi connectivity allows for wireless installation, reducing the need for extensive wiring and enabling flexible placement options.

The device supports H.265 compression technology, which helps in reducing bandwidth and storage requirements while maintaining high-quality video output. It also features motion detection technology, which triggers recording and alerts when movement is detected, enhancing the security measures of the monitored area.

This camera is compatible with iOS and Android devices through a dedicated app, facilitating remote viewing and management of video feeds from smartphones and tablets.
