This portable boombox plays CDs, cassette tapes, your playlists, DAB+/FM radio shows and more. The sound is rich and you can play it loud. You can also connect external audio devices, and there's a headphone socket and companion app too.

Portable CD player with tape deck and DAB+/FM radio

The top-loading CD player can read any kind of CD format, while the cassette deck lets you enjoy all those mixtapes from back in the day. A digital tuner makes it easy to find DAB+ or FM radio stations, and you can set up to 60 presets for the ones you love.

Powerful sound, easy to carry

Bass-reflex speakers with dedicated tweeters bring you 24 W max (12 W RMS) of rich sound, and you can activate Dynamic Bass Boost for extra punch. A built-in carry handle and the option to use mains power or batteries add convenient portability.

Easy streaming with Bluetooth® multipoint and Auracast™

Bluetooth® 6.0 lets you stream playlists without annoying dips in the sound, and you can connect to two devices at once. For even bigger sound, our handy companion app lets you use Auracast™ to make this player part of a multi-speaker setup.

More flexibility with USB audio, audio-in, headphone out

There's also a USB port so you can plug in a flash drive to enjoy your digital music collection, and you can connect a turntable to the audio-in port. If you're somewhere quiet, you can plug in your wired headphones to listen in private.

Integrated sleep timer

If you like to drift off to sleep with music, an audiobook or the radio playing in the background, you can set the sleep timer for 120, 90, 60, 30 or 15 minutes. The CD player will enter standby mode after that time has elapsed.

Philips Entertainment app. Simple sound control

Download our companion app and you can use your smart device to switch between sources, select radio presets, enhance the bass, set up Auracast™ for even bigger sound and more.
