D-Link DAP-E3620OU wireless access point 3600 Mbit/s White Power over Ethernet (PoE)

Model: DAP-E3620OU

Manufacturer: D-LINK

EAN: 790069482298

Product Code: 1603602

R6,139

Wi-Fi 7 Technology

Dual-band Wi-Fi 7 (802.11be), BE3600 class (2×2 + 2×2), delivering lower latency and higher efficiency for multi-user traffic

Rugged Outdoor Design

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

IP67-rated weatherproof design for reliable outdoor deployment and built for harsh environments with reduced maintenance

Customizable Captive Portal

Per-SSID captive portal support enables branded guest access, promotions, and flexible login workflow

VLAN per SSID

Each SSID to a dedicated VLAN for traffic segmentation, enabling simple separation of networks through policy-based control

Protection and Mounting

Flexible mounting options combined with durable protection ensure reliable installation and long-term performance

Centralized Management

Centralized management through Nuclias Unity or Nuclias hardware/software controllers (DNH-1000, DNC-5000)

Faster Wireless,

Better Business Experiences

- Experience next-generation dual-band Wi-Fi 7 (BE3600 class) built for modern business networks, delivering faster speeds, lower latency, and more reliable connectivity.
- With up to 5 GHz up to 2882 Mbps and 2.4 GHz up to 688 Mbps, businesses gain high-capacity performance for productivity, collaboration, and everyday wireless connectivity.
- Advanced 4K-QAM improves throughput and device capacity, while Multi-Link Operation (MLO) enhances responsiveness and reliability in busy environments.
- Designed for resort garden, school campus, public square and outdoor application,
- it provides stable, scalable wireless performance for staff, guests, and connected
- devices-helping improve productivity, user experience, and operational efficiency.

Outdoor Wi-Fi 7 That Braves the Elements

Engineered for harsh environments, the DAP-E3620OU delivers blazing Wi-Fi 7 (BE3600) speeds inside a fully weatherproof chassis built for year-round reliability. Its IP67-rated enclosure and wide temperature tolerance keep connections stable through pouring rain, scorching heat, and freezing cold. With a 2.5GbE PoE uplink, you can place it anywhere without worrying about power outlets—perfect for campuses, factories, public plazas, and outdoor dining areas.

Easy Installation & High-Speed Deployment

The DAP-E3620OU features a single-cable 2.5GbE and PoE+ connection, delivering both power and high-speed data through one Ethernet cable. This simplifies installation, reduces cabling complexity, and enables more flexible device placement in outdoor environments where power access may be limited.

With high-speed 2.5GbE backhaul support, the wired network can fully support Wi-Fi 7 performance without bottlenecks, ensuring smooth connectivity for bandwidth-intensive applications and wireless deployments.

Simplified Centralized Network Management

- The DAP-E3620OU integrates seamlessly with D-Link Nuclias Unity and Nuclias hardware and software controllers, including the DNH-1000 and DNC-5000, to streamline Wi-Fi management for growing business networks.
- Through an intuitive dashboard, IT teams can quickly provision access points, enforce SSID and VLAN policies, deploy firmware updates, and monitor network health across sites. Centralized visibility and configuration simplify deployment, accelerate troubleshooting, and reduce routine maintenance, making it easy to scale from small installations to enterprise environments with consistent performance and security.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
