The equip® 133447 DisplayPort to HDMI Passive Adapter lets you connect a DisplayPort-enabled PC or laptop to an HDMI monitor, TV, or projector. It's a simple way to keep using existing HDMI displays with newer DisplayPort devices, without upgrading your screen.

Supporting video resolutions up to 4K (3840 x 2160) at 30Hz, the adapter delivers clear, stable output for everyday work, presentations, and basic multimedia. The compact 15cm pigtail design helps reduce strain on ports and is easy to carry in a laptop bag or sleeve.

With straightforward plug-and-play setup and no drivers required, you can quickly mirror or extend your desktop to an HDMI display in offices, classrooms, or meeting rooms.
